

teeth

- One - on - one obedience with sit - down - and stand
- Tracking exercises with treats, then "go find family member"
- More novel stimuli introduction (umbrellas, etc.)
- "Ball on the wall" game for retrieval skill building
- Introduction to shallow bodies of water
- Teaching bite inhibition
- Introduction to the crate

8 - 10 WEEKS -

- Continuing work on basic commands and in different locations and on different surfaces
- Tracking work continues outdoors
- Starting agility work - jumping a bar etc.
- Leash training
- More work on retrieval skills
- May start to add "wait" command, "leave it" and "go to your bed/place"
- Continue solidifying the recall
